A nursing home is a residence that provides a room, meals, skilled nursing and rehabilitative care, medical services, and protective supervision to residents. It also provides residents with recreational activities and help with activities of daily living.

The following directory of nursing homes profiles all nursing homes located in Chester County. Nursing homes are certified by State and Federal government agencies to provide levels of care, which range from custodial care to skilled nursing care that can only be delivered by trained professionals.

All homes except the Nursing Home Unit of the Coatesville VA Medical Center are licensed and regulated by the Pennsylvania Department of Health. The Nursing Home Unit of the VA Medical Center is operated by the Department of Veterans Affairs and, as an extension of the VA Hospital, meets standards set by the Joint Commission on Accreditation of Hospitals.

Residents of nursing homes have basic and special rights under Federal and State law. Complaints about violations of residents' rights or any problems concerning nursing homes can be addressed to the local Ombudsman at the above address and telephone number.

Please note that the following listings are for information only and do not imply endorsement or recommendation by the Chester County Department of Aging Services.

Note: Additional information, including survey results on Nursing Homes in Chester County and PA, are available at:  www.health.state.pa.us /Facilities Providers and Managed Care/Nursing Care Facilities.
