Chester County’s coordinated entry program for emergency shelters and other housing resources.

ConnectPoints conducts in-depth assessments of individuals and families throughout Chester County who are experiencing homelessness or are at risk of becoming homeless. ConnectPoints works closely with community agencies to assist clients in finding the most appropriate resource for their housing needs with the goal of helping anyone avoid becoming homeless whenever possible. In instances where clients do find themselves homeless, ConnectPoints places individuals and families on a prioritization queue for emergency shelters and other housing options that would provide a safe and temporary place to stay.
