

## 2021 Chester County Envirothon Goes Virtual

Chester County will not hold an in person 2021 County Envirothon. We are excited to announce that the Chester County Envirothon will be held virtually for the Senior Team Competition. It will include all the station testing from past year events including: Aquatics, Wildlife, Forestry, Soils and the Current Issue of Water Resources Management: Local Control and Local Solutions.

Please note the change of date: The **Senior Event will be held virtually on April 14, 2021** and will be a team event.

Please see the PA Envirothon Website for study materials. We will be getting in touch with SR team Coaches soon for more details.

We are also excited to give an **alternative event** for the Middle School and Elementary Levels as a series of Chester County virtual environmental sessions. These Chester County videos will be available in the spring on line.

More details will be provided in the coming months. So stay tuned and stay well.
