

Join Chester County Employees for an Earth Day Stream and Grounds Cleanup

Celebrate Earth Day by joining fellow County employees to improve the water quality of our local creeks at this outdoor **Go Green Chesco** event. The parking lots and grounds at the Government Services Center drain into Goose Creek, a headwater stream in the Chester Creek watershed. By helping to clean up litter on the County's property, our efforts will directly reduce pollution and enhance water quality and stream habitats in Chester County.

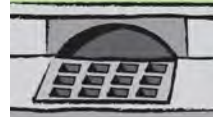

Gloves and trash bags will be supplied. We recommend that attendees wear a long-sleeved shirt, long pants, and old shoes or boots that can get dirty (and muddy for those willing).

Go Green Chesco Stream & Grounds Clean-Up Thursday, April 22, 2021 (Rain Date April 27)

Please check your email the day prior to the Clean-Up to find out whether the event will take place as scheduled.

STORMWATER TIP:
Don't put oil or trash in storm drains — storm drains empty into streams!

Location: Government Services Center
Time: 3:00 PM to the end of the work day
Registration: email water@chesco.org by the end of the day on Tuesday, April 20th

Employees should meet at the front entrance of the GSC. Co-sponsored by the Chester County Water Resources Authority and Chester County Department of Facilities. Attendees will be required to wear masks and practice social distancing.
