

ARP ESSER Health and Safety Plan Guidance & Template

Section 2001(i)(1) of the American Rescue Plan (ARP) Act requires each local education agency (LEA) that receives funding under the ARP Elementary and Secondary School Emergency Relief (ESSER) Fund to develop and make publicly available on the LEA's website a *Safe Return to In-Person Instruction and Continuity of Services Plan*, hereinafter referred to as a *Health and Safety Plan*.

Based on ARP requirements, 90 percent of ARP ESSER funds will be distributed to school districts and charter schools based on their relative share of Title I-A funding in FY 2020-2021. **Given Federally required timelines, LEAs eligible to apply for and receive this portion of the ARP ESSER funding must submit a Health and Safety Plan that meets ARP Act requirements to the Pennsylvania Department of Education (PDE) by Friday, July 30, 2021, regardless of when the LEA submits its ARP ESSER application.**

Each LEA must create a Health and Safety Plan that addresses how it will maintain the health and safety of students, educators, and other staff, and which will serve as local guidelines for all instructional and non-instructional school activities during the period of the LEA's ARP ESSER grant. The Health and Safety Plan should be tailored to the unique needs of each LEA and its schools and must take into account public comment related to the development of, and subsequent revisions to, the Health and Safety Plan.

The ARP Act and U.S. Department of Education rules require Health and Safety plans include the following components:

1. How the LEA will, to the greatest extent practicable, implement prevention and mitigation policies in line with the most up-to-date guidance from the Centers for Disease Control and Prevention (CDC) for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning;
2. How the LEA will ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services;
3. How the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC:

- a. Universal and correct wearing of [masks](#);
- b. Modifying facilities to allow for [physical distancing](#) (e.g., use of cohorts/podding);
- c. [Handwashing and respiratory etiquette](#);
- d. [Cleaning](#) and maintaining healthy facilities, including improving [ventilation](#);
- e. [Contact tracing](#) in combination with [isolation](#) and [quarantine](#), in collaboration with State and local health departments;
- f. [Diagnostic](#) and screening testing;
- g. Efforts to provide COVID-19 [vaccinations to school communities](#);
- h. Appropriate accommodations for children with disabilities with respect to health and safety policies; and
- i. Coordination with state and local health officials.

The LEA's Health and Safety Plan must be approved by its governing body and posted on the LEA's publicly available website by July 30, 2021.* The ARP Act requires LEAs to post their Health and Safety Plans online in a language that parents/caregivers can understand, or, if it is not practicable to provide written translations to an individual with limited English proficiency, be orally translated. The plan also must be provided in an alternative format accessible, upon request, by a parent who is an individual with a disability as defined by the Americans with Disabilities Act.

Each LEA will upload in the eGrants system its updated Health and Safety Plan and webpage URL where the plan is located on the LEA's publicly available website.

The ARP Act requires LEAs to review their Health and Safety Plans at least every six months during the period of the LEA's ARP ESSER grant. LEAs also must review and update their plans whenever there are significant changes to the CDC recommendations for K-12 schools. Like the development of the plan, all revisions must be informed by community input and reviewed and approved by the governing body prior to posting on the LEA's publicly available website.

LEAs may use the template to revise their current Health and Safety Plans to meet ARP requirements and ensure all stakeholders are fully informed of the LEA's plan to safely resume instructional and non-instructional school activities, including in-person learning, for the current school year. An LEA may use a different plan template or format provided it includes all the elements required by the ARP Act, as listed above.

* The July 30 deadline applies only to school districts and charter schools that received federal Title I-A funds in FY 2020-2021 and intend to apply for and receive ARP ESSER funding.

Additional Resources

LEAs are advised to review the following resources when developing their Health and Safety Plans:

- [CDC K-12 School Operational Strategy](#)
- [PDE Resources for School Communities During COVID-19](#)
- [PDE Roadmap for Education Leaders](#)
- [PDE Accelerated Learning Through an Integrated System of Support](#)

Health and Safety Plan Summary: Chester County Prison

Initial Effective Date: 08-27-21

Date of Last Review: N/A

Date of Last Revision: N/A

1. How will the LEA, to the greatest extent practicable, support prevention and mitigation policies in line with the most up-to-date guidance from the CDC for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning?

2. How will the LEA ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services?

3. Use the table below to explain how the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC.

ARP ESSER Requirement	Strategies, Policies, and Procedures
a. Universal and correct wearing of masks ;	Every individual entering Chester County Prison is required to correctly wear a mask that meets CDC requirements. Masks are also available within the facility and must be properly worn at all times.
b. Modifying facilities to allow for physical distancing (e.g., use of cohorts/podding);	Classroom desks are spaced appropriately to allow for proper physical distancing. Inmates attending classes are kept in cohorts from the same living areas.
c. Handwashing and respiratory etiquette ;	Handwashing reminder signs are posted at all common sinks and bathrooms.
d. Cleaning and maintaining healthy facilities, including improving ventilation ;	Monthly Safety and Environmental meetings and rounds ensure a clean facility with proper ventilation. Ventilation systems were upgraded at the beginning of COVID. All commonly touched surfaces such as doorhandles are cleaned though out every day. Major

ARP ESSER Requirement	Strategies, Policies, and Procedures
	cleaning of living areas are scheduled twice a week and classrooms are cleaned daily.
e. Contact tracing in combination with isolation and quarantine , in collaboration with the State and local health departments;	All intakes into the facility are tested twice and quarantined in collaboration with State and local health departments to ensure COVID does not enter the facility via intake. If an inmate tests positive they are placed in our isolation section until medically cleared.
f. Diagnostic and screening testing;	Abbott rapid antigen testing is completed at intake and a PCR swab is performed and sent out to the lab prior to an inmate coming out of quarantine and into general population.
g. Efforts to provide vaccinations to school communities ;	Vaccinations were offered to all facility staff and inmates when they became available and continue to be offered to all staff and inmates.
h. Appropriate accommodations for students with disabilities with respect to health and safety policies; and	ADA policies are followed.
i. Coordination with state and local health officials.	Weekly phone calls are held between prison administration, medical staff, and the Chester County Health Department.
