

**2021 CRP Funding Recommendations**

<b>Municipality</b>	<b>Project Title</b>	<b>Request Amount</b>	<b>Project Description</b>	<b>Recommended Amount</b>
Borough of Atglen	Borough Hall Park and Chester Valley Trail Head	\$487,566	The proposed activity would develop a new park on the Borough Hall parcel in Atglen Borough's downtown and construct a connection to the future Chester Valley Trail Extension (CVT). Incorporated in the design is Atglen's first municipal owned playground and a community gathering place.	\$ 487,566
Borough of Kennett Square	Terminal Way Sewer Infrastructure	\$400,000	The proposed activity would remove approximately 1,200 feet of 8 inch terracotta sewer main and brick manholes making up the Terminal Way sewer main and replace it with a new 10 inch PVC main and precast concrete manholes.	\$ 400,000
Borough of Modena	Modena Roads and Stormwater Reconstruction	\$1,048,200	The activities would create safer roads throughout Modena, control stormwater to create a safer driving experience, and add traffic calming measures to ensure safer travel for all those that use our roads, pedestrians, bicyclists, and motorists.	\$ 600,000
Borough of West Grove	Oakland Avenue Revitalization Part 1	\$629,090	The proposed activity would address revitalization of Oakland Avenue in West Grove Borough to address the deteriorating condition of the roadway, the stormwater system, and sidewalks. This would increase safe pedestrian traffic in the Borough by connecting to previously installed sidewalks.	\$ 412,434
City of Coatesville	Wagontown Road Reconstruction	\$500,000	The proposed project involves the reconstruction of a section of Wagontown Road between Manor Road and East Glencrest Road to stabilize the roadway and protect critical water and sewer infrastructure.	\$ 500,000

Total Awarded \$ 2,400,000
